2.4 RM, 3125 HU

Emergence

Tall plant type

SDS tolerance

Rating Scale: 1-2 excellent (E), 3-4 very good (VG),
5-6 good (G), 7-8 fair (F), 9 poor (P)

Definitions: AA = Above Average, A = Average
NP = Needs Placement (avoid placing on acres where field has a history of challenges with the assigned trait or manage accordingly)

Agronomy Characteristics

Plant Height	Tall
Canopy Type	Medium-Thin
Standability	NP
Maturity	2.4 RM
Emergence	AA
Row Width (inches)	15-30
Soil Type	All

Disease Characteristics

SCN Resistance	PI 88788
White Mould	A
PRR Field Tolerance	NP
PRR Gene	N/A
SDS Tolerance	AA
