OAC Kamran

October 2026

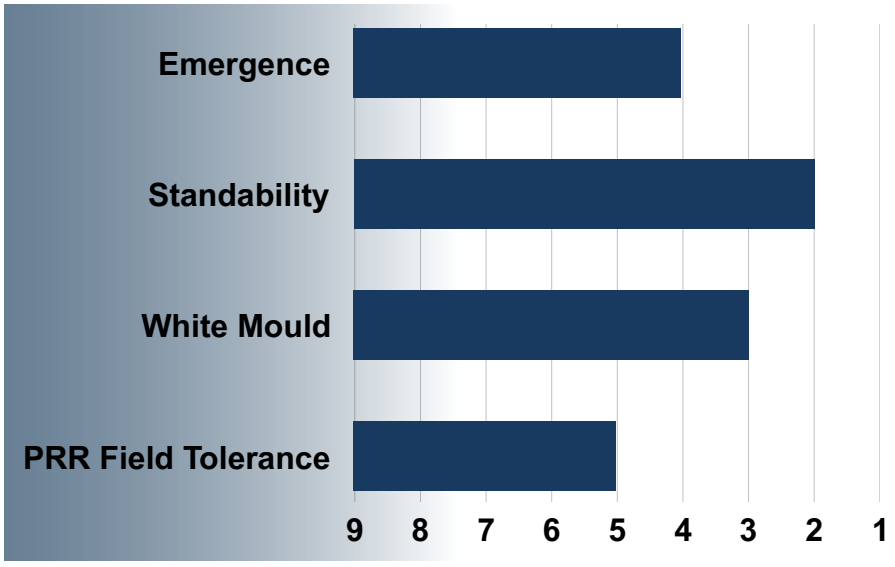

Variety Fit:

OAC Kamran is well-suited for highly productive loam soil types with excellent standability. Large-seeded variety with high protein and sucrose levels.

Image: Elora, ON, Sept. 11, 2025

- 0.6 RM, 2725 HU
- Standability
- Narrow rows 7-15 inch
- High protein

Rating Scale: 1-2 excellent (E), 3-4 very good (VG), 5-6 good (G), 7-8 fair (F), 9 poor (P)

Definitions: AA = Above Average, A = Average
NP = Needs Placement (avoid placing on acres where field has a history of challenges with the assigned trait or manage accordingly)

Agronomy Characteristics

Plant Height	Medium-Short
Canopy Type	Medium
Standability	AA
Maturity	0.6 RM
Emergence	A
Row Width (inches)	7-15
Soil Type	Loam

Disease Resistance

SCN Resistance	PI 88788
White Mould	A
PRR Field Tolerance	NP
PRR Gene	No
SDS Tolerance	AA
